North Carolina

Viettel 18m Tower

Installed in 2022 in
Vietnam

Wasatch Wind 83m Guyed tower

Installed in 2004 to
monitor windspeeds in
Spanish Fork Canyon,
Utah, USA

A dark-colored road bicycle is shown in profile, facing left. The frame is black with some white text, including 'RAZIK' on the down tube. A white mesh or lattice pattern is overlaid on the frame, particularly around the head tube, seat tube, and down tube. The bicycle has drop handlebars, a saddle, and two wheels with many spokes. The background is a light, textured surface.

Other Projects

NASA lunar lander structure

Designed in 2001,
resulting in the
invention of IsoTruss

Boom for solar array

Kovit bicycle frame

Built in 2017, 610 grams
